

A Program of Grow Clinton

Grow Clinton is pumped to share that we've launched a Business Lab as part of our **EntreFuel** entrepreneurial development program. The **Grow Clinton Business Lab** supports local startups and existing businesses by offering the following services to our members at no cost.

Startup Coaching

Work 1-on-1 with our startup coaches, all experienced entrepreneurs, to move from business concept to open for business.

Business Management Coaching

Utilize 1-on-1 business management coaching to overcome common growth obstacles, develop effective strategies, and stay focused on future success.

Succession Plan Coaching

Prepare your business to transition ownership by answering the critical transition questions now and define the value of your business to potential buyers.

Website Evaluations

Let our professional website coaches evaluate your website, new or established, and provide constructive feedback and tools to help you accomplish necessary changes or updates.

Website Design Bootcamps

Are you looking for a website that drives sales but doesn't cost a fortune? This bootcamp teaches entrepreneurs how to use WIX to build and manage a website representing their brand.

Peer Learning Roundtables

Online video discussions allow entrepreneurs to connect with rural business owners nationwide to talk shop. Each roundtable is facilitated and focuses on topics important to business owners.

Peer Learning Forum

The nationwide forum helps new and experienced business owners connect to share valuable advice, get multiple perspectives, learn from each other's experiences, and move their businesses forward.

Curated Workshop Library

Only the "best of the best" of business development workshops and training opportunities make it into the curated workshop library. You no longer have to ask if this workshop is worth your time.

Curated Podcast Library

A full podcast library of only the most relevant, most valuable, and most interesting episodes to businesses and communities in rural areas.
